

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER Monitoring Requirements Not Met for Cass Lakeside Subdivision

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the third quarter of 2010, we did not monitor for partial chemistry, volatile organic chemicals (VOCs), synthetic organic chemicals (SOCs), and cyanide and, therefore, cannot be sure of the quality of our drinking water during that time.

What should I do? There is nothing you need to do at this time. This is not an emergency. You do not need to boil water or use an alternative source of water at this time.

The table below lists the contaminant(s) we did not properly test for during the third quarter of 2010, how often we are supposed to sample for this contaminants and how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which follow-up samples were taken.

Contaminant	Required sampling frequency	Number of samples taken	When all samples should have been taken	Date samples were taken
Partial Chemistry	1 sample annually	0	01/01/2010 to 09/30/2010	11/2/2010
VOCs	1 sample every 36 months	0	01/01/2010 to 09/30/2010	11/2/2010
SOCs	1 sample every 36 months	0	01/01/2010 to 09/30/2010	11/2/2010
Cyanide	1 sample every 36 months	0	01/01/2010 to 09/30/2010	11/2/2010

What happened? What is being done?

Cass Lakeside Subdivision has taken procedural steps to assure that all future monitoring is completed as required by the Department of Natural Resources and Environment (DNRE).

For more information, please contact Mr. Steve O'Connor at 248-732-7317 or the DNRE at 586-753-3755.

Please share this information with all the other people who drink this water especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses).
